What does the TAC do?

In Victoria the Transport Accident Commission (TAC) works to prevent accidents and support those who have been injured on our roads.

The TAC pays for medical treatment, rehabilitation services, disability services, income assistance, travel and household support services to help you get your life back on track after a transport accident.

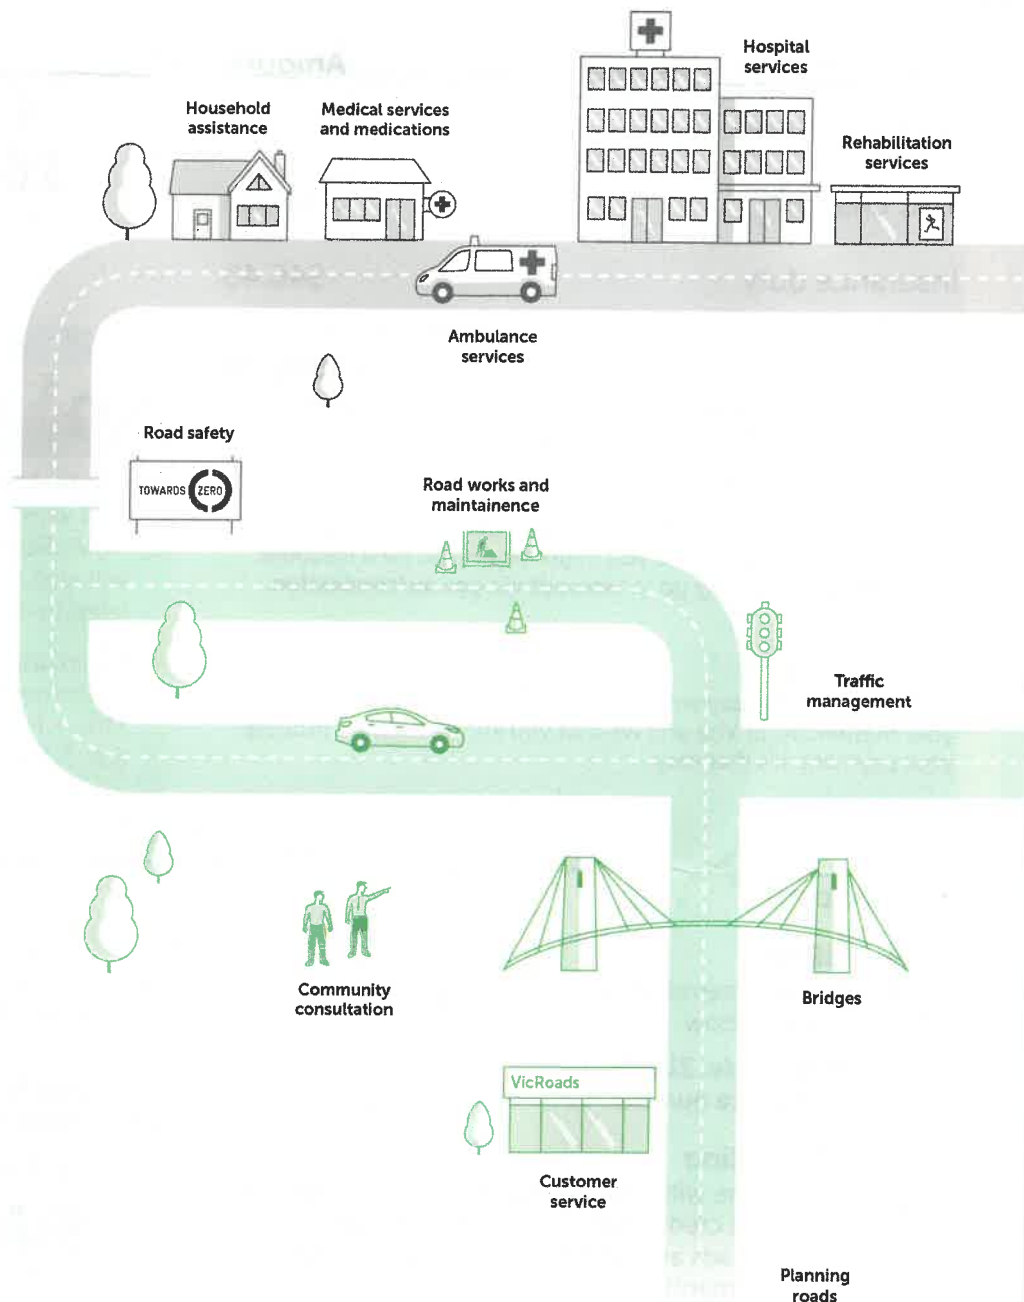

What does VicRoads do?

We exist to provide Victorians with safe and easy connections to the people and places that matter most to them.

Current projects

We're upgrading Swan Street Bridge to help reduce congestion, and improve safety and travel times for drivers, pedestrians and cyclists. The upgrade will add an extra lane for drivers heading east to remove bottlenecks and provide safer and better access for joggers and cyclists.
